(An asterisk [\*] after a page number indicates that the reference is an abstract and not an original article.)

### A

- Acetylcholine, studies on effect of on hypertension, 300
- Ackermann, W., 126\*
- Adams, Leyland J., 251\*
- Adams-Stokes syndrome, treatment of due to auriculo-ventricular block, 197
- sign of "satellite auricular contraction," 677\*
- Adrenalin test in hypertension, 763
- Agastoni, G., 245\*
- Aitken, Louis, and Gray, S. H., 120\*
- Alcohol, action of, on the cardiac output of normal man, 809\*
- Alexander, John, Barker, P. S., and Macleod, A. G., 720
- Allan, Mary, and Hill, N. G., 120,\* 815\*
- Alt, Howard L., Smith, W. C., and Walker, G. L., 697,\* 810\*
- Altschule, Mark, and Ringer, M., 305
- Amyl nitrite, studies on effect of, on hypertension, 300
- Anderson, Alan R., 251\*
- Anemia, pernicious, combined with thyrotoxicosis, heart output in, 243\*
- Aneurysm, arterio-venous, 543 (Book review)
- of the bronchial arteries, 795
- of the coronary arteries, 812\*
- congenital, of the interventricular septum, 811\*
- ventricular, cardiac syphilis with, 126\*
- Angina, with abdominal symptoms, and coronary infarct, 813\*
- pain of, observations on the etiological correspondence between, and cardiac infarction, 813\*
- pectoris, localized sweating in, 519
- use of epinephrin as a diagnostic test for, 537\*
- Aorta, elasticity, (extensibility) of human beings, 781
- gross lesions in, following rheumatic fever, 120\*
- histology in acute rheumatism, 126\*
- tuberculosis of, 251\*
- vascularization of, 391\*
- Aortic valve, insufficiency, syphilitic, coronary occlusion in, 93
- Aortitis, syphilitic, abnormal electrocardiogram in patients with, 84
- involvement of medium-sized arteries in, 244\*
- on the treatment of, 683\*

- Arrhythmia, cardiac, clinical features and mechanism of the irregular heart, 253 (Book Review)
- rapid ventricular, produced by pressure over the precordium, 375
- sinus, accompanying each second normal respiration, 104
- rapid, significance of in old people, 816\*
- Arteriosclerosis in coal miners, 391\*
- Arteries, senile changes in, in a child, 248\*
- Ashman, Richard, 581
- Auricle, marked dilatation of left, 811\*
- Axis deviation, experimental left and right, 393\*
- of the heart, bundle-branch block, the phenomena of its development in relation to, 813\*
- electrical, as an indication of changes in ventricular predominance, 247\*

### B

- Bach, Francis, 812\*
- Baker, Benjamin M., 674\*
- Barker, Paul S., Macleod, A. G., and Alexander, J., 720
- Barnard, Wm. G., 812\*
- Barnes, Arlie R., and Whitten, M. B., 14, 142
- Barr, Sir James, 681\*
- Bates, Wm., and Talley, J. E., 232
- Baths, warm immersion, some effects of on circulation, 814\*
- Batten, Lindsey W., and Simpson, R. H., 389\*
- Bell, James H., Wiggers, C. J., and Payne, Margaret, 351
- Beneke, Rudolph, 810\*
- Bennett, G. A., and Houck, G. H., 787
- Beriberi heart, 539\*
- Bettman, Ralph Boerne, and Priest, W. J., 366
- Birkeland, Ivan W., and Yater, W. M., 781
- Bishop, Louis Faugeres, Bishop L. F., Jr., and Wallace, S. C., 238
- Jr., Bishop, L. F., and Wallace, S. C., 238
- Blood pressure and weight, 394\*
- systolic, in duodenal and in gastric ulcer, 394\*
- in diabetes mellitus, 395\*
- venous, clinical aspects of, 542 (Book Review)
- orthopnoea, its relation to the increased, of myocardial failure, 679\*
- Blood supply of right and left ventricle in childhood, 529\*

- Blood vessel, rhythmic changes in size, plethysmographic studies, 246\*  
volume, and plasma in health and disease, 543 (Book Review)
- Bloom, Benson, and Perlow, S., 486
- Blumgart, Herman L., and Gargill, S. L., 424, 437  
and Ernstene, A. C., 679\*
- Boas, Ernest P., and Weiss, Morris M., 123\*
- Body surface, area of and measurements of normal heart in children, 536\*  
weight and blood pressure, 394\*
- Bohrod, Milton G., 814\*
- Bowers, L. G., 246\*
- Bradycardia, permanent, following diphtheria, 524
- Brams, William A. and Zeiss, F. R., 300
- Bronchial arteries, aneurysm of, 795
- Brown, Charles L., and Levine, S. A., 121\*  
George, E., and Hartman, H. R., 394\*  
and Rowntree, L. G., 543\*
- Burkhardt, E. A., Jr., 811\*
- Burnett, Clough Turrill, and Piltz, G. F., 252\*
- Burton, J. A. G., Cowan, J., Kay, J. H., Marshall, A. J., Rennie, J. K., Ramage, J. H., and Teacher, J. H., 814\*
- Burvill-Holmes, E., and Chandlee, G. J., 125\*
- Burwell, C. Sidney, Smith, W. C., and Neighbors, DeW., 243\*
- Butler, Stuyvesant, and Levine, S. A., 592
- C
- Caffeine, action of on the cardiac output of normal man, 809\*
- Cannell, D. E., 811\*
- Cannon, J. H., 93
- Capillary bed, density of, in health, in arterial hypertension and in arteriosclerosis, 511
- Capacitance, distortion of the electrocardiogram by, 191
- Cardiotachometer, heart rate during sleep as determined by, 123\*
- Cecil, Russell L., Nicholls, E. E., and Stainsby, W. J., 250\*
- Ceelen, W., 392\*
- Chandlee, Gertrude Jackson, and Burvill-Holmes, E., 125\*
- Children, auricular fibrillation in, with an early toxic digitalis manifestation, 528\*  
blood supply of right and left ventricle in, 529\*  
effect of digitalis on electrocardiogram of, with rheumatic fever and chronic valvular heart disease, 387\*  
on sinus rate of, with rheumatic fever and chronic valvular heart disease, 528\*
- Churchill, Edward D., and White, P. D., 532\*
- Circulation, measurement of, constant rate of absorption of ethyl iodide vapor and its significance as a basis for, 678\*  
problems in pathology of, 393\*  
preservation of a healthy and efficient, from childhood to advanced age, 681\*
- Clawson, B. J., 249\*
- Cloetta, Max, 387\*
- Coates, Vincent, 533\*
- Cobe, Herbert M., 682\*
- Codina-Altes, Juan, and Veil, Paul, 541 (Book Review)
- Coffen, T. Homer, 99, 667
- Conduction, disturbed, in the auricle, 674\*  
time, auriculo-ventricular, relationship in rheumatic fever to salicylate therapy, 568
- Conner, Lewis A., 529\*  
and Holt, E., 705
- Cookson, Harold, 126\*
- Coombs, Carey F., 543, 813\*
- Coronary artery, aneurysm of, 812\*  
disease of, electrocardiograms in, 257\*  
occlusion, electrocardiogram in, following a stab wound of the left ventricle, 232  
acute, atypical features of, 534\*  
changes after, 247\*  
in a case of familial liability to sudden death, 681\*  
of the dog, 743  
main branches of in acute rheumatic carditis, 815\*  
relation of the distribution and structure of, to  
myocardial infarction, 529\*  
sclerosis, on factors predisposing to, 810\*  
syphilitic occlusion of in aortic insufficiency, 93  
thrombosis of, its various clinical features, 121\*  
observation on, 125\*  
subsequent course and prognosis in, 705  
two cases of complete occlusion of both, 412  
infarction and angina with abdominal symptoms, 813\*
- Cowan John, and Faulds, J. S., 125\*  
Burton, J. A. G., Kay, J. H., Marshall, A. J., Rennie, J. K., Ramage, J. H., and Teacher, J. H., 814\*
- Cox, Ralph L., 812\*
- Crisler, George, and Van Liere, E. J., 806\*
- D
- Davies, H. Whitridge, and Holmes, G., 814\*  
M. Llewellyn, and Lightwood, R. C., 120\*

- DeGraff, Arthur C., and Goodman M., 375  
 Wycoff, John, and Parent, S., 568  
 DePorte, J. V., 652  
 Deutsch, Felix, 680\*  
 Dextrocardia, on congenital isolated, 673\*  
 Diabetes mellitus, blood pressure in, 395\*  
 Dickson, D. Elliot, and Dickson, W. Arnott, 391\*  
 Dickson, W. Arnott, and D. Elliot, 391\*  
 Dietlen, H., 393\*  
 Digitalis, biochemical action of, 387\*  
   circulatory changes after full therapeutic doses of with a critical discussion of views on cardiac output, 679\*  
   effects of, on the electrocardiogram of children with rheumatic fever and chronic valvular heart disease, 387\*  
     on the sinus rate of children with rheumatic fever and chronic valvular heart disease, 528\*  
     intravenous administration of in paroxysmal tachycardia of supraventricular origin, 549  
   consumption and effects in warm blooded animals, 806\*  
   emesis, mechanism of in pigeons, 124\*  
   importance of difference in the potency of, in clinical practice, 401  
   object of therapy, 1  
   stability of, 386\*  
   toxic manifestation, auricular fibrillation in children with an early, 528\*  
   use of foxglove at the bedside, 530\*  
   therapy, cardiac output in diseases of heart and under influence of, 305  
   its use in children, 534\*  
 Diphtheria, circulatory failure of, 247\*  
   as a cause of late heart-block, 592  
   permanent bradycardia following, 524\*  
 Dissociation, auriculo-ventricular, mechanism of transition from, to sino-auricular rhythm, 437  
 Diuretics, effectiveness of, as a guide to prognosis in congestive heart failure, 251\*  
 Dock, W., and Tainter, M. L., 679\*  
 Dressler, William, 674,\* 674,\* 675,\* 677\*  
 and Fischer, R., 250\*  
 Duke, W. W., 537\*
- E**
- Edema in congestive heart failure, 251\*  
 Einthoven, reminiscences of, 545  
 Electric shock, on the recovery of the heart in, 390\*  
   studies of ventricular fibrillation, caused by, 351, 539\*  
 Electrocardiogram, abnormal in patients with syphilitic arteritis, 84  
   aspects of, 254, (Book Review)  
   changes in quiescent rheumatic disease in children and young adults, 504  
 Electrocardiogram, changes—Cont'd  
   following transient changes in conduction, 530  
   distortion of by capacitance, 191  
   electrodes for, 113  
   and roentgenograms in arterial hypertension, 291  
   in acute infections, 252\*  
   in pericardial effusion, 68  
   length of Q-T interval of, effect of various factors on duration of electrical systole, 120\*  
   record of a paroxysmal cardiac irregularity as a manifestation of thyroid administration, 383  
   signs associated with low basal metabolism, 246\*  
   study of T-wave negativity in predominant ventricular strain, 14  
   R-T interval in myocardial infarction, 142  
   studies, before and after chest operations, 366  
   ventricular complexes in myocardial infarction and fibrosis, 812\*  
 Electrocardiography, principles and practice of, 125 (Book Review)  
   applied, 253 (Book Review)  
   clinical treatise, 541 (Book Review)  
 Eliosoph, Bingham, Gross L., and Lower L., 243\*  
 Ellis, Lawrence B., and Weiss S., 635  
 Embolism paradoxical, with blood clot in foramen ovale, 812\*  
 Endocarditis, rheumatic, intermediary forms between malignant endocarditis and, 244\*  
   subacute bacterial, studies on pathogenesis of, 392\*  
   case of, 124\*  
   right sided, congenital pulmonary stenosis and collateral pulmonary circulation, 213  
   with pulmonary stenosis, 238  
   intermediary forms between rheumatic endocarditis and, 244\*  
 Epinephrine, use of as a diagnostic test for anginal pectoris, 537\*  
 Ernstene, A. Carlton, 125,\* 815\*  
   Levine, S. A., and Jacobson, B. M., 537\*  
   and Blumgart, H. L., 679\*  
 Erythrocyte sedimentation, plasma fibrinogen and leucocytosis as indices of rheumatic infection, 815\*  
 Esophagus, visualized in the differentiation of lesions of the right and left heart, 574  
 Ethyl iodide vapor, constant rate of absorption of and its significance as a basis for measuring the circulation, 678\*  
 Excitatory process, observed in the exposed human heart, 720  
 Exercise, variation in the heart after, 680\*

## Exercise—Cont'd

- effect of, on the circulation in patients with chronic rheumatic valvular disease, subacute rheumatic fever and complete heart-block, 810\*
- effect of, on size of normal hearts and of enlarged hearts of dogs, 123\*
- Eyster, J. A. E., 542 (Book Review)

## F

- Fahr, Th., 393,\* 531\*
- Faulds, J. Steven, and Cowan, J., 125\*
- Faulkner, James M., 816\*
- Feil, H. S., Scott, R. W., and Katz, L. N., 68, 77
- Fibrillation, auricular, in children with an early toxic digitalis manifestation, 528\*
- in patients with goiter, 683\*
- ventricular, caused by electric shock, 351, 539\*
- Fibroma polypoid of left auricle, causing a ball valve action, 787
- Finland, Maxwell and Robey, W. H., 681\*
- Fischer, Robert, and Dressler, W., 250\*
- and Kiss, A., 386,\* 676\*
- Fistula arterio-venous, local and systemic effects of, on the circulation in man, 635
- Flutter, auricular, following direct injury to the chest, 680\*
- ventricular, permanent nodal rhythm, with attacks of unconsciousness, caused by, 677\*
- Fordyce, A. Dingwall, 681\*
- Frazier, William R., and Weiss, S., 511
- Fullerton, Charles, and Harrop, G. A., Jr., 538\*

## G

- Gargill, Samuel L., and Blumgart, H. L., 424, 437
- Geraudel, E., 677\*
- Ghrist, David G., and Hartman, H. R., 394\*
- Gilechrist, A. Rae, and Ritchie, W. T., 812\*
- Giraldi, J. J., 126\*
- Glucose solution, intravenous injection of, disappearance of intraventricular heart-block occurring in uremia, 469
- Goiter, auricular fibrillation in patients with, 683\*
- Gold, Harry, Wycoff, J., and Travell, J. G., 401
- Goldring, William, 251\*
- Goodman, Morris, and DeGraff, A. C., 375
- Graham, Evarts A., 391\*
- Gray, S. H., and Aitken, L., 120\*
- Grégoire, Raymond, 543\*
- Grollman, Arthur, 809\*
- Gross, Louis, Loewe, L., and Eliosoph, B., 243\*

## H

- Haag, Harvey B., and Hatcher, R. A., 386\*
- Hann, R. M., Schwartz, E. W., and Keenan, G. L., 243\*
- Hanzlik, P. J., and Ward, D. A., 124\*
- Harrison, Winston F., 213
- Harrop, George A., Jr., and Fullerton, C., 538\*
- Hart, A. P., and Silverthorne, L. N., 124\*
- Hartman, Howard R., and Brown, G. E., 394\*
- and Ghrist, D. G., 394\*
- Harvey, E. Newton, 388\*
- Hatcher, Robert A., and Haag, H. B., 386\*
- Heart, infarction of, observation on the etiological correspondence between anginal pain and, 813\*
- measurement of, in children, and area of body surface, 536\*
- in modern practice, diagnosis and treatment, 255 (Book Review)
- nervous, 9
- response in acute diffuse glomerulonephritis, 277
- output of, action of alcohol, caffeine and tobacco on normal man, 809\*
- in disease of heart and under the influence of digitalis therapy, 305
- in heart disease, 679,\* 810\*
- in hyperthyroidism, 538\*
- in man, 809\*
- in thyrotoxicosis with pernicious anemia, 243\*
- views on, with the circulatory changes after full therapeutic doses of digitalis, 679\*
- Heart-block, auriculo-ventricular, treatment of Adams-Stokes syndrome due to, 197
- bundle branch, with short P-R interval in healthy young people prone to paroxysmal tachycardia, 685
- partial, 617
- phenomenon of its development in relation to axis deviation of the heart, 813\*
- right, on the clinical significance of, 812\*
- right, suspected clinically, diagnosed with the electrocardiogram and proved by autopsy, 245\*
- Heart-block, bundle branch, transient, effect of cardiac rate and inhalations of oxygen on, 674\*
- complete, associated with rapid ventricular rate, 486
- of seven years' duration in a child resulting from injury, 667
- congenital, with incomplete heterotaxy, 126\*
- diphtheria as a cause of, 592

- Heart-block—Cont'd  
 intraventricular, disappearance of in uremia following the intravenous injection of hypertonic glucose solution, 469  
 "latent theory" of and interpolated ventricular premature beats, 581\*  
 variations in, sometimes attributed to a supernormal recovery phase, 750
- Heart beat, distribution of the potential differences produced by the, within the body and at its surface, 599
- Heart clinics of New York. Their origin, aims and accomplishments, 660
- Heart decompression of, 391\*
- Heart disease, cardiac output in, and under influence of digitalis therapy, 305  
 cardiac symptoms not due to, 648  
 congenital, pulmonary stenosis, collateral pulmonary circulation, and massive right sided vegetative endocarditis, 213  
 experience in management of pregnancy complicated by, 395\*  
 further observations on latent hyperthyroidism masked as, 396\*  
 incidence of in Pacific northwest, 99  
 in State of New York, a statistical review of mortality and morbidity, 652  
 pathway of pain impulses in, 124\*  
 psychic factor in, 529\*  
 prevention of sudden death in, 386\*  
 rheumatic, acute, main branches of coronary artery in, 815\*  
 diagnosis and treatment of in the early stages, 534\*
- Heart failure, in diphtheria, 247\*  
 congestive, early signs of, 682\*  
 edema in, 251\*  
 effectiveness of diuretics as a guide to prognosis in, 251\*  
 liver function in, 679\*  
 use of theocalcin in the treatment of, 684\*  
 pain, and localized sweating, 522  
 insulin shock as a cause of, 671  
 rate during sleep as determined by the cardiometer, 123\*  
 size, effect of exercise in normal hearts and enlarged hearts of dogs, 123\*  
 variation in, especially the diminishing heart, immediately after exercise in sports, 680\*  
 ventricular, electrical axis as an indication of changes in, 247\*  
 standstill, of vagal origin, 493  
 symptoms, not due to heart disease, 648
- Henderson, Yandell, and Moblitz, W., 678\*
- Heparin, repeated intravascular injections of, note on effect of, 810\*
- Herrick, James B., 534\*
- Herpath, C. E. K., and Perry, C. B., 681\*
- Hift, Robert, 683\*
- Hill, N. Gray, and Allan, M., 120,\* 815\*
- Holmes, Geoffrey, and Davies, H. W., 814\*
- Holt, Evelyn, 248,\* 522\*  
 and Conner, L. A., 705
- Hooker, Donald R., 390\*
- Houck, G. H., and Bennett, G. A., 787
- Howell, W. H., and McDonald, C. H., 810\*
- Hubbard, R. S., and Webb, A. M., 536\*
- Hughes, F. W. Terrell, and Perry, C. B., 248\*
- Hurxthal, Lewis M., 683\*
- Hyman, Albert S., and Parsonnet, A. E., 813,\* 253 (Book Review)  
 Harold Thomas, 383
- Hypertension, arterial, 684\*  
 age and sex incidence of, 172  
 characteristic electrocardiogram and roentgenograms, 291  
 cystic kidney as a cause of, 393\*  
 development of a clinical concept of, 684\*  
 quantitative aspects and dynamics of the circulatory mechanism in, 448  
 the adrenalin test in, 763  
 the symptomatology of, 816\*  
 essential, significance of in young male adults, 531\*
- Hyperthyroidism, cardiac output in, 538\*  
 latent, further observations on, masked as heart disease, 396\*
- I
- Infarct of heart muscle, relation of the distribution and structure of the coronary arteries to, 529\*
- Insulin shock as a cause of cardiac pain, 671
- Interpretation of extrasystoles during idioventricular rhythm, 482
- Ionescu, von, Prof., and Baileanu, C., 531\*
- J
- Jacobi, Mendel, 795
- Jacobson, Bernard M., Levine, S. A., and Ernestene, A. C., 537\*
- Jensen, Julius, 763
- Johnson, Charles C., 538\*
- Jolliffe, Norman, 679\*
- Jones, H. Wallace, and Roberts, R. E., 247\*
- Joseph, V. Boros, 530\*
- Jupe, Montague H., and Tallerman, K. H., 532\*
- Juster, Irving R., and Pardee, H. E. B., 84

## K

- Kahn, Morris H., 680\*  
 Katz, L. N., Scott, R. W., and Feil, H. S., 68, 77  
 Kay, J. Hunter, Burton, J. A. G., Cowan, S., Marshall, A. J., Rennie, J. K., Ramage, J. H., and Teacher, J. H., 814\*  
 Keefer, Chester S., 539\*  
 Keenan, G. L., Schwartz, E. W., and Hann, R. M., 243\*  
 Kenway, Florence L., and Reid, W. D., 246\*  
 Kidney, cystic as a cause of constant hypertension, 393\*  
 Kilgore, Eugene S., 9  
 Kiss, Aristed, and Fischer, R., 386,\* 676\*  
 Kissane, R. W., 113, 536\*  
 Koch, Robert, and Semsroth, K., 392\*

## L

- Leary, Timothy, and Wearn, J. T., 412  
 Levine, Samuel A., and Brown, C. L., 121\*  
     and Butler, Stuyvesant, 592  
     and Walker, G. L., 396\*  
     Ernestene, A. C., and Jacobson, B. M., 537\*  
 Levy, I. Jesse, 277  
 Lewis, Sir Thomas, 682\*  
 Lightwood, R. C., and Davies, M. L., 120\*  
 Liver, function in congestive heart failure, 679\*  
 Livingston, W. K., 559  
 Loewe, Leo, Gross, L., and Eliosoph, B., 243\*  
 Lueth, Harold C., and Sutton, D. C., 811\*  
 Lundy, Clayton J., and Woodruff, L. H., 393\*  
 Luten, Drew, and Pope, S., II, 750

## M

- MacDonald, R. A., and Nabarro, D., 249\*  
 Macleod, A. Garrard, Barker, P. S., and Alexander, J., 720  
 Major, Ralph H., and Wahl, H. R., 477  
 Major, S. G., 395\*  
 Marshall, A. J., Burton, J. A. G., Cowan, J., Kay, J. H., Rennie, J. K., Ramage, J. H., and Teacher, J. H., 814\*  
     E. K., 809\*  
 Masters, Arthur M., 291  
 Maynard, Edwin P., 660  
 McClenahan, W. U., and Paul, J. R., 249\*  
 McDonald, C. H., and Howell, W. H., 810\*  
 McLean, C. C., 533\*  
 Metabolism, basal low, electrocardiographic signs associated with, 246\*  
 Miller, Reginald, 535\*  
 Mitral valve, stenosis of, displacement of left nipple in, 344

- Moblitz, Woldemar, and Henderson, Y., 678\*  
 Moore, Norman S., and Stewart, H. J., 469  
 Moore, Robert A., 743  
 Morawitz, P., 386\*  
 Mudd, Seeley G., and White, P. D., 120\*  
 Myocarditis, acute isolated, 129  
 Myocardium, fibrosis of, four cases with electrocardiographic and post-mortem examination, 814\*  
     and infarction of, ventricular complexes in, 812\*  
     infarction of, study of the R-T interval in, 142  
     lesions of, present status of, 392\*  
     with paroxysmal tachycardia, 477

## N

- Nabarro, David, and MacDonald, R. A., 249\*  
 Nathanson, M. H., 257  
 Neighbors, DeWitt, Burwell, C. S., and Smith, W. C., 243\*  
 Nephritis, acute diffuse glomerulo, cardiac response in, 277  
 Nicholls, Edith E., Cecil, R. E., and Stainsby, W. J., 250\*  
 Nisse, Bertram S., and Price, F. S., 197  
 Nitroglycerin, studies on effect of, on hypertension, 300  
 Nodal rhythm, permanent, with attacks of unconsciousness caused by ventricular flutter, 677\*  
 Noel, William M., and Schwentker, F. F., 247\*

## O

- Oettinger, Jacob, 247\*  
 Orthopnoea, its relation to the increased venous pressure of myocardial failure, 679\*  
 Ouabaine, physiological standard for digitalis, strophanthus and squill, 243\*  
 Oumansky, V., and Paiseau, G., 244\*

## P

- Pain, cardiac, insulin shock as a cause of, 671
